***Election/Restrictions***

1. Newly submitted claims 34-43 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: They are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, the new claims (34-43) describe a system and method of printing encrypted documents from a client to a printer with the use of a management server while the originally presented claims were directed toward printing encrypted documents from a client to a printer minus the use of a centralized server. While the originally presented claims may be used in the new system and method claims, the newly presented claims present additional features which were not originally claimed.
2. Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 34-43 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.
3. The amendment filed on 23 November 2007 canceling all claims drawn to the elected invention and presenting only claims drawn to a non-elected invention is non-responsive (MPEP § 821.03). The remaining claims are not readable on the elected invention for the reasons set forth above.
4. Since the above-mentioned amendment appears to be a *bona fide* attempt to reply, applicant is given a TIME PERIOD of ONE (1) MONTH or THIRTY (30) DAYS, whichever is longer, from the mailing date of this notice within which to supply the omission or correction in

order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD UNDER 37 CFR 1.136(a) ARE AVAILABLE.
